Objective

Full-Stack Web Developer specializing in the MERN stack with hands-on experience building real-time applications, scalable backend systems, and responsive user interfaces. Seeking internship or entry-level opportunities to apply my skills in real-world development environments.

Education

Parul University, Vadodara, Gujarat

Bachelor of Technology – Computer Science & Engineering (AI & ML)   2024 – 2028

- CGPA: 6.0 / 10

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, MySQL
Languages: JavaScript, Python, C
Tools: Git, GitHub, VS Code, Postman, Vercel

Projects

E-Commerce Web Application (MERN)

- Developed a full-stack e-commerce platform with product listing, cart, and order management.
- Integrated secure online payments using Stripe Payment Gateway.
- Implemented RESTful backend APIs using Node.js, Express, and MongoDB.
- Built a responsive and user-friendly React-based interface.

Real-Time Chat Application

- Built a real-time messaging application using Socket.IO.
- Implemented event-driven backend architecture for instant updates.
- Designed a clean, responsive UI optimized for real-time communication.

MoodMitra – AI Powered Web Application

- Developed an AI-powered web application using Retrieval-Augmented Generation (RAG).
- Integrated local LLMs to generate contextual and meaningful responses.
- Applied prompt engineering techniques and REST API integration.

Strengths

- Strong problem-solving skills with the ability to analyze complex problems and deliver multiple effective solutions.
- Unbound and adaptable thinker capable of approaching challenges from different perspectives.
- Team leadership experience with the ability to lead, coordinate, and mentor teams to achieve project goals.
- Effective communicator and collaborative team player.
